

NEOSTAT CONTROLLERS

CONTROL FROM ANYWHERE

ambiente®

more than underfloor

PRODUCT OVERVIEW

Neo is the Smart Way to Control your Heating and Hot Water from Anywhere. Up to 32 Rooms can be controlled from your iPhone, Android and Windows Phone. NeoStats are stylish, feature rich and are perfect for controlling underfloor heating, electric floor heating and conventional radiator heating systems.

Neo has been designed to ensure that upgrading is as easy as possible and surprisingly affordable. If you already have a wired thermostat, there is usually no new wiring requirements and by using your homes existing wiring you don't have to worry about replacing batteries.

You also don't need any computer knowledge to start controlling your heating and hot water directly on the neoApp.

Slimline appearance and touch control

NeoStat is flush mounted with a depth of just 15mm. Touch sensitive keys give a clean and smooth interface with a blue back lit screen set within glacier white or sapphire black units provide a contemporary, premium feel for the series.

Smartphone control

NeoApp will positively change the way you control your home heating and hot water. No need to engage directly with time clocks or thermostats any longer, neoApp allows you to control everything directly on your SmartPhone or Tablet.

NeoApp's intuitive design ensures programming and override features are quick and easy for anybody to use. Lifestyles often follow patterns, Neo Profiles make changing patterns quick and easy. By setting up profiles, neoApp users are able to switch heating control parameters with a few quick screen taps.

Getting connected to your Neo System couldn't be easier. NeoHub plugs directly into your broadband router and communicates to all of your neoStat's via a mesh network. This mesh network provides a much more reliable and far reaching network than a standard RF system.

Smartphone Apps

Free to download Apps are available for iPhones/iPads, Android phone/tablet and Kindle devices.

NeoStat
Stylish and contemporary with flush fitting, touch sensitive controls and two stunning colour options in 'glacier white' and 'sapphire black'.

NeoApp

Remote sensor probe

Remote sensors can be connected to the neoStat and neoStat-e. These can be either air or floor.

Geo location

Using the Location Services feature on your iPhone or Android SmartPhone, Neo can now help you reduce your energy consumption by turning the heating off when you're out.

Supporting Multi Users, Neo can automatically reduce the temperature in your home when the last person leaves and increase the temperature when the first person returns. Geo Location is perfect for busy households when a fixed heating schedule just isn't practical.
