

Product overview

The AmbiFlex M16 is an ultra-flexible MLCP (multi-layer-composit pipe) dedicated for Underfloor Heating applications and our most flexible MLCP pipe yet. The combination of flexibility and durability makes this pipe a choice for professionals.

The base material is PE-RT type 1 with an aluminum layer including the signature orange SpeedStripe which is seen on the core UFH pipes from Ambiente. The M16 features a build up of 5 layers which gives the pipe the ability to hold its shape once laid.

Key features

- LifeTime warranty
- Ultra-Flexible MLCP pipe
- Dedicated for UFH applications
- Signature orange SpeedStripe for quick identification
- Coil sizes, 120, 240 and 500m
- Two way meter marking on pipe

Product warranty

M16 carries a LifeTime warranty and is compatible with the SlimPul fitting.

The M16 pipe is expected to be pressure tested to double the normal working pressure of the system and left under pressure for 30mins.

The SlimPul pipe fittings should be used to maintain the lifetime warranty of the pipe.
